Interesting Bulletin From the Department of Agriculture.

Arsenical Compounds Used to the Best Advantage to Protect Foliage. Three Methods of Application. Time for the Inspection of Plants.

rist of the Department of Agriculture, as written a treatise on "Important Insecticides," which was issued yesterday n bulletin form. It gives brief directions concerning a few of the insecticide agents having the widest range and at-ended with the greatest usefulness, econ-

my, and ease of application. Regarding insecticides for external bitng insects the bulletin says; "The artically, all other substances for the incts falling under this heading. The two rsenicals in most common use, and obainable everywhere, are Paris green nd London purple. The other two arsencals mentioned, Scheele's green and arsenate of lead, are less known and not easily obtainable, but in some respects are better than the first-mentioned pois-ons, as will be shown later. The use of

due to its being crystallized due to its being crystallized acid, making it a more brilliant pigment, but giving it a coarse grain and rendering it a much poorer insecticide.

"Scheele's green is similar to Parls green in color, and differs from it only in lacking acetic acid; in other words, it is a simple arsenite of copper. It is a much finer powder than Parls green, and therefore more easily kept in suspension, and has the additional advantage of costing has the additional advantage of costing about half as much per pound. When the proposed in the many about half as much per pound. When the more pound when the more even than Paris green, is quicker in effect, and should supplant the latter as an insecticide. It is used in the same way and at about the same strength as Paris

green and London purple.
"London purple is a waste product in the manufacture of aniline dyes and contains a number of substances, chief of which are arsenic and lime. It is quite variable in the amount of arsenie and is not so effective as the green poisons and is much more apt to scald unless mixed with lime. It comes as a very fine powder, and is more easily kept in suspension than Paris green. It costs about 10 cents a

"Arsenate of lead is prepared by combining, approximately, 2 parts of the arasement of soods with 7 parts of the arasement of soods with 7 parts of the action of the well of the constance of the pulserized provided in water. These substances when pulserized upon the death of the well of the we

MR. CLEVELAND STARTS HOME. The Ex-President Talks Freely on

Everything but Politics. NORFOLK, Va., March 13.—Grover Reveland arrived here last evening from Back Bay, where he has been shooting lucks, and proceeded for Princeton to-night over the New York, Philadelphia and Norfolk Railway. He was in a par-ticularly good humor, and talked freely with reporters on every topic except

He expressed great regret when told of the serious illness of ex-President Harson, and said, regarding Andrew Car-egie's offer to give \$50,000 to Norfolk for public library: "Mr. Carnegie is doing a great deal of

good."
He chaffed a reporter who asked him how many ducks he bagged, saying:
"We have not yet agreed on the story we will tell about that. I am willing to let my reputation for prowess as a hunter rest on the reports of the newspaper men."

rest on the reports of the newspaper men."
He had just dined with Joseph Seelinger, of the Eack Bay Club, and when a reporter asked him what he thought of Mrs. Nation's saloon smashing crusade, he was silent. Finally he said: "That is a social question on which I am not qualified to speak."

The reception accorded to Mr. Cleveland here greatly surprised many. A great crowd surrounded the house where he dined and waited long. When he entered the carriage which conveyed him to the railway station they surrounded him, eager to shake hands with him. Rich and poor were among the crowd and some were negroes.

QUICK DEATH FOR A BRIDE. Young Consumptive Married When

Hope of Life Was Gone. NEW YORK, March 13 .- A brief notice bining, approximately, 3 parts of the arney McElroy and daughter of Nathalle senate of soda with 7 parts of the acetate Pierce and the late Algernon Sidney Jar-

seleved she would sool recover. She agreed to the marriage and it took place as described. For a time she rallied, but the end was in sight all the time, and death came on Monday.

The funeral was held at St. Agnes' Church, East Forty-third Street at 10 o'clock this morning.

TINTED SNOWS AND RAINS.

Meteorological Phenomena Wide. spread Throughout Europe.

VIENNA, March 13.-Although the heat wave accompanying the sirocco in Italy was not experienced in Austria, the meteorological phenomena in this country

have been remarkable. There have been falls of tinted snow in southern Austria and the Alpine provinces which are variously described as red, brown, and yellow. Klagenfurt, Salzbury, Meran, Flume, Bad-Gastein, and other places report such snowfalls, with an unusually low temperature. There were slight earthquakes at Botat the latter place destroyed twenty-tw

houses.

The colored deposits are being analytically examined at various places.

Frof. Salcher is of the opinion that it is sirocco borne sand from the Desert of Sahara. He suspects some volcanic distributes of the color of t

Sahara. He suspects some volcanic disturbance.

BERLIN, March 12.—The red rain phenomenon is reported from many places in Germany from the South to the Esitic. It was very noticeable in Hamburg, where a heavy rain and snow were mixed with brownish sand, glying a curious that to the roofs, shipping, etc.

A chemical analysis shows that the deposit is greasy. Local opinion doubts its connection with the Mediterranean sirocco, and is inclined to attribute it to a volcaule eruption, possibly of Mount Hecla. The observatory officials at Hamburg report showers from the southeast, the rain carrying sandy dust.

INSTALLED AS PRESIDENT.

Imposing Ceremonies Held at Tulane University, of Louisiana. NEW ORLEANS, March 13.-Edward A

Aldeman was yesterday formally installed as President of Tulane University, of Louisiana. The installation ceremonies were imposing, the students forming at ulane Hall and marching in their robes Tulane Theatre, where an audience of or Tulane Theatre, where an audience of 600 was present. Addresses were made by President E. A. Aldeman, Bishop Davis essums, President W. R. Harper, of rhicago University; W. M. Butler, of Combia University; and others. A number of presidents of other colleges were present, and took part in the premonies, and congratulatory telerams were received from most of the ading colleges in the country. Dr. Aldenan resigned the position of President of the University of North Carolina to accept that of Tulane, whose memberships now 1,184.

rested for the murder of Thomas, recorder opened the court several hours in advance of the usual time yesterday, made a preliminary examination of the risoners, and had them sent to the Parsh prison before 8 a. m.

There was a large number of persons in attendance at the court at the usual time of opening. They were greatly disapthat the negroes were safe behind the posit vault box in New York was or negro balls, believing them to be the In an old silk dress a large amount of

ill negro dances. ng to the closing of negro gambling sa-oons and dance houses. A number of prominent colored men of New Orleans prominent colored men of New Orleans have called a mass meeting of their race, to be held at Odd Fellows' Hall, on Saturay night. The meeting will condemn the lawless acts committed by negroes lately, and especially the marder of Officer Thomas, and tender assistance to the city authorities to get rio of the lawless negoes in New Orleans. It will ask the mayor to arrest all negroes violating the law or who are dangerous and suspicious, and have no visible means of support.

suspicious, and have no visible means of support.

The better class of colored people have been very much disturbed over the situation here for some time, and have been holding daily meetings to try to formulate some plan that will tend to get rid of the many negro gamblers and other desperadoes who have taken refuse here. The police raided several negro dives and gambling saloons and arrested sixty-five gamblers in them, but the Criminal Court yesterday released the negroes. It was explained that the places were regularly organized clubs. The mayor, however, has ordered them all closed.

FOR INDUSTRIAL SCHOOLS.

An Appeal Issued by a Culpeper, Va., Woman. NEW YORK, March 13.-An appeal for

funds to furnish means for the establish-ing of industrial schools in the Southern States has lately been issued over the name of Anne S. Green, at Culpeper, Va. In the appeal is found the following reference to the children of many Southern "Let the little ones not perish or be-

ome base citizens with brutal instincts, fitting them for poorhouses and penitentiaries. Many of them; girls and boys, at the early age of eight and ten, are being placed by their poverty-stricken parents in the milis and factories which are springing up in the country. They have public schools, but they do not reach the evil or extend, the helping hand of home, fireside, food, or clothing; for the lack of these they are unable to avail themselves of the nation's provision."

WILL OF A WOMAN MISER

Almost Starved Herself to Save a Fortune for Charity.

Lived Alone With a Maltese Cat for Company After the Death of Her Husband-Her Money Hung on a Tree at Night-Remains Cremated.

NEW YORK, March 13.-Although Mrs. Marietta D. 'Iay, an aged and eccentric widow of Tarrytown, lived like a miser in two rooms of a mansion she owned on Groye Street, in that village, and almost starved herself, it is revealed by her rogate's office, at White Plains, that she leaves an estate estimated at \$300,000. Mrs. Hay was the widow of De Witt C.

bought raffroad bonds, and after his death he continued to save up a fortune, She seldom spent more than \$2 a week for living expenses. At night she gathered her money and jewelry together and placed them in a small black bag which she hung on the himb of a tree outside her bedroom window, so that, she said, if burglars entered her home, she could truthfully tell them she had no money in the house. This bag often contained many thousands of dollars, as she did not believe in banks.

consisting of railroad bonds and gilttions. Not long before she died she went before the Tarrytown assessors and swore off a \$10,000 personal assessment, claiming she was poor. It was then believed that she did not own much property, but after soluted when they learned that the she did not own much property, but after negroes' cases had been disposed of and her death a key to a drawer in a safe dethat the negroes were safe belinds walls of the parish prison. Mayor Capde-ered, and in this thousands of dollars' welle has refused to grant any permits worth of bonds were found.
